ACE NY and NYOWA Joint Statement on the Announcement of Additional Renewable Energy Project Awards

ALBANY, Oct. 24, 2023 — The Alliance for Clean Energy New York congratulates the companies that have developed and proposed these three offshore wind projects and 22 land-based wind, solar, and hydroelectric projects; see Governor Hochul’s announcement [here](#).

Anne Reynolds, Executive Director of the Alliance for Clean Energy New York commented:

“New contracts for 22 wind, solar, and hydroelectric projects, plus for three major offshore wind energy projects, is good news for New York’s environment and electricity system. Building these projects will mean construction jobs for laborers, electricians, and other building trades, as well as cleaner air for New Yorkers. The renewable energy industry welcomes today’s announcements and looks forward to continuing to work with the state of New York on its ambitious energy transition.”

Fred Zalzman, Director of the New York Offshore Wind Alliance added:

“Today’s announcement, awarding three contracts for more than 4,000 MW of offshore wind generation, shows that New York is prepared to double down on this clean, renewable and job-creating resource, and will go a long way towards instilling confidence in a market that has recently faced tremendous headwinds. We look forward to working with the Governor and other stakeholders in getting these early-stage projects to the finish line.”
